

DENI SUSANTO

East Java, Indonesia.

avom.valtz@gmail.com · github.com/avoidofme · linkedin.com/in/avoidofme

Summary

Entry-level DevSecOps practitioner with self-taught foundations in Linux administration, containerization (Docker/Podman), and automation scripting (Python, Go, Bash). Built CI/CD pipelines with GitHub Actions, including automated vulnerability scanning with Trivy. Security background through self-directed offensive study (PortSwigger, TryHackMe, OverTheWire, CTFs), applied toward securing the development pipeline. Seeking a junior DevSecOps/DevOps role to grow into cloud infrastructure and security automation.

Technical Skills

- **Infrastructure:** Docker, Docker Compose, Linux Administration, Git, GitHub Actions (CI/CD)
- **Security Tools:** Burp Suite, Trivy, Nmap
- **Languages & Scripting:** Python, Go, Bash

Projects

- **Personal Portfolio** — Astro, JavaScript, GitHub workflows
avoidofme.github.io — Source: github.com/avoidofme/avoidofme.github.io
→ Personal site with blog and project writeups, deployed via GitHub Actions.
- **AvPS** — Go
Source: github.com/avoidofme/avps
→ Concurrent TCP port scanner using goroutines, scans 1000+ ports in seconds.
- **Von** — Python, Go, PostgreSQL, Docker, Docker compose
Source: github.com/avoidofme/von-da-bot
→ Full-stack Discord bot ecosystem: Python bot, Go backend, PostgreSQL database, containerized and networked via Docker Compose.

Independent Experience

- **Self-Directed Cybersecurity practice:** Self-directed study via PortSwigger Academy (Web Security such as SQL injection and SSRF), TryHackMe (Jr Penetration Tester Path), OverTheWire, CTFs, OWASP Juice Shop.

Education & Achievements

- **SMA N 1 Campurdarat** — High School Diploma (Graduated 2026)
→ Finalist — National Science Olympiad (OSN) in Informatics (Province level)

Certifications & Digital Credentials

- **Python** — freeCodeCamp
→ freecodecamp.org/certification/avoidofme/python-v9
- **Introduction to Cybersecurity** — Cisco Networking Academy
